4. Body of email: Total number of swimmers, divers, entries, relays
5. Body of email: Contact information in case of problem, list all numbers
6. Girl/boy entries **MUST** be separate files/emails

Who/What to include in entries?

1. Everyone in every event possible. Only DIVERS in diving events.
 2. There will be NO additions to this file only time updates. So don't forget anyone... including your divers!
 3. Swimmer IDs **only for US swimmers**. Please double check that you have proper IDs for swimmers.
- Some kids have a nickname for SAL and their proper name with a middle initial for US. Enter proper US ID. This is the only way to identify a swimmer in the SWIMS database.
- Double check who is registered US vs not (or will be prior to February meet).
